Mr. Jackson showed the Director a letter from Mr. Lovett enclosing letters from Senator Russell and Senator Saltonstall requesting that CIA submit to the Committee CIA estimates and papers on the Korean War from June 1, 1950, through April 1, 1951. After considerable discussion, the Director stated that he would write the President enclosing the Russell and Saltonstall letters and suggesting that CIA be authorized to submit the conclusions in pertinent national estimates after October 1, 1950, and nothing else. The Director will also call Senator Saltonstall and advise him of our willingness, subject to authorization, to submit this information. He will also explain to Senator Saltonstall that the great mass of supporting reports and information cannot be submitted due to the necessity of protecting the sources.
